Smokin Heights - 2019/2020

Thank you for your continued support toward Bailey and Myself at Smokin Heights, we appreciate the support, feedback and friendship of our growing business.

This year we have registered 8 Tall Bearded Iris and continue to work hard in reaching our goals. With the help of our American gardening family we are using the best genetics we can to achieve our results.

This past year has seen trying times with the lack of rainfall. It just goes to show how resilient the Iris really are. The rhizomes coming out the ground were huge and full of lovely new growth. We received many phone calls and emails with such positive feedback. Once again we thank you our customers for your support, in hard times that means everything to have something positive to cling to.

A month to look forward to is October 2020 which sees the National Iris Convention here in South Australia. We look forward to seeing many people from all over Australia visiting our wonderful region. We hope you can join us!

As I write this the Iris are starting to put on new growth, even the new import Iris which have been planted into the garden setting are coming along quiet nicely. We have had a minute fraction of our annual rainfall we would normally receive. It seriously is nice just to have the green. I still cannot believe that weeds can germinate and grow with no rainfall!

Bailey and myself hope that this catalogue is thoroughly enjoyed. Bailey has once again worked tirelessly to produce for your reading pleasure.

We have instigated contact with the government in due course of obtaining our clearance to ship to TAS and WA, upon approval we will be in possession of a seasonal permit. We very much look forward to sharing our love of Iris.

This year we have decided to open the garden throughout October 10am-4pm Friday, Saturday and Sundays and other times by appointment. Large groups are more than welcome.

WAVES ON THE COAST (Bailey Schiller 2019) **VE-M 35"** Light blue standards have a violet-blue infusion at the midrib.
